

Orange Star Lander instructions

step 1

The Lander has only one sheet of parts, so quickly print it out, and get out your papercrafting tools!

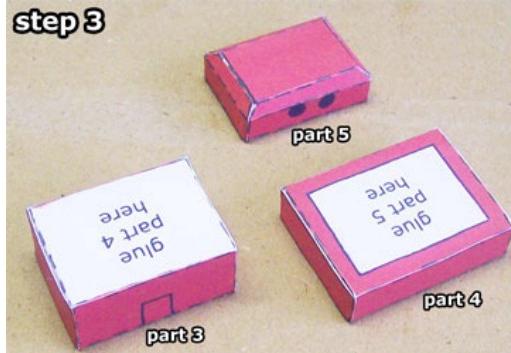

step 2

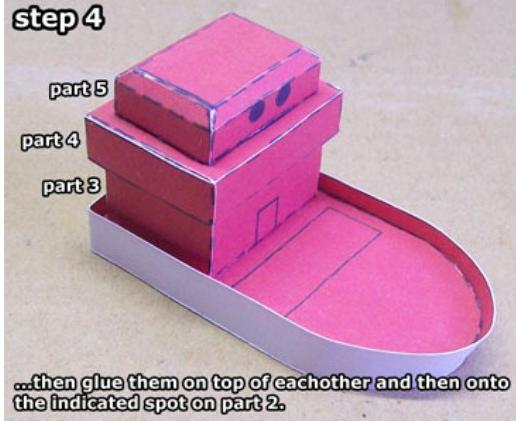

Start by gluing together part 1 (with the coloured side in) then glue part 2 in the middle, along center black line.

step 3

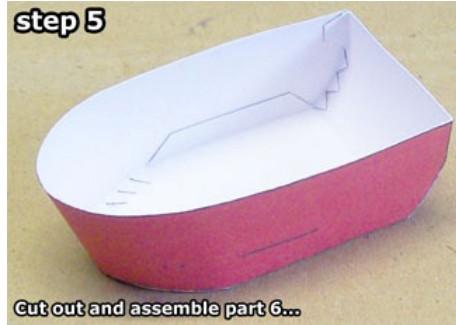

Cut out and assemble parts 3-5 as shown here...

step 4

...then glue them on top of eachother and then onto the indicated spot on part 2.

step 5

Cut out and assemble part 6...

step 6

Then glue parts 1-5 inside, aligning the edges of the hull.
Thank you for building a Ninjatoes' papercraft model!
